WEBPAVEMENT SMART CONTROL

HIGHLIGHTED FEATURES

schedule any rs-232 command

power on / off

switch video sources

change CATV channel

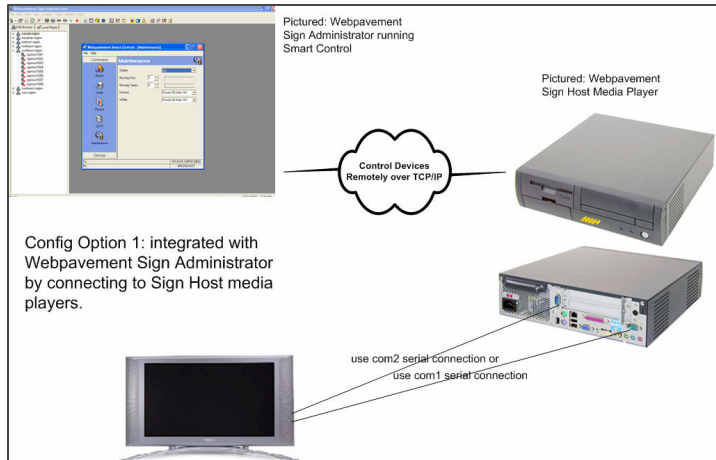

mute or adjust volume levels

plasma display screen burn maintenance (i.e. orbiter, inverse, white wash)

SMART CONTROL is device management software compatible with any A/V product including Plasma's, LCD's, Projectors, Televisions, Switches and more.

Smart Control is comparable to having your device's remote-control installed on your computer. Features such as Turn On / Off, switch video sources, change channels and setting volume levels are standard functionality.

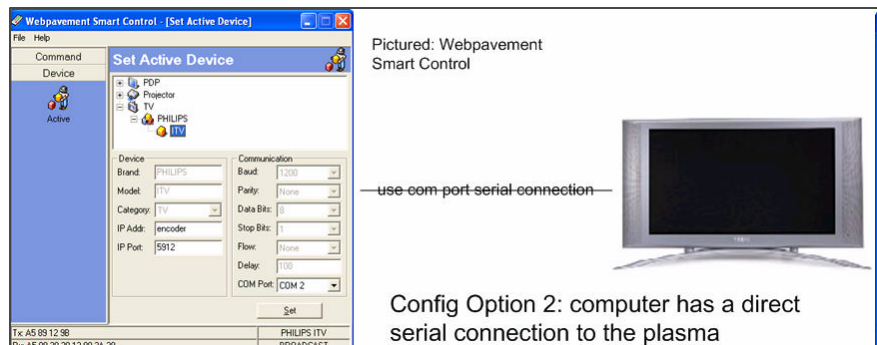

➔ **Manufacturer Independent:** smart control is designed to support all manufacturer devices. Devices and commands are stored in an updateable XML file for your convenience.

Automate you're Audio Visual

Anything you can do with your remote control can be scheduled.

Power on & power off you devices at specified times. Switch your plasma displays to CATV during lunch hours.
