

WEBPAVEMENT

DIGITAL SIGNAGE SYSTEMS & SCROLLING TICKER TAPE

HIGHLIGHTED FEATURES

Integrated Ticker Display

- The ticker is fully configurable. Your ticker can look similar to CNN or customized using your own look and feel.
- Scroll Dow Jones, Nasdaq and S&P market summaries, individual stock quotes and most actives
- Scroll Headline News
- Scroll weather: current conditions and extended forecasts.
- Scroll your custom messages: urgent messages, event and wayfinding information, promotions.

Schedule your display to power on & power off according to building hours.

Get creative! For example, the display network can turn to the local news when employees are leaving to check traffic conditions.

Standardize volume levels or Mute the entire network

Display live streaming media & live video feeds. Perfect for CEO address or training sessions.

Touch Screen

Full support for touch-screen displays. Perfect for office directories and public internet access kiosks.

Messaging function allows security to immediately send emergency messages.

Create playlists using common file formats

- powerpoint
- windows media
- quicktime
- macromedia flash
- macromedia director
- real networks
- MPEG 1-2-3-4 and AVI
- HTML
- all graphic formats
- Music & Audio: mp3
- dynamic content (URL)
- DivX
- Scala Designer (.SCB)
